

# CAPABILITY STATEMENT

*INLaser*, a division of *Steelcore Construction*, specializes in micro-fabrication, precision laser processing includes welding, cutting, marking, assemblies, and prototyping

## Core Competencies

- 20+ year experience in laser processing: welding, cutting, brazing, ablating, and marking
- 20+ years in micro fabrication
- 20+ years in concept realization and manufacturing
- Materials testing: Tensile, Compression, Torsion
- Post Processing: Cleaning, Surface Prep
- Quality: inspection, documentation, traceability
- Metrology
- Microscopy

## Differentiators

- **Mission:** Over 20 years of experience in industry, with mission to serve our clients exemplary manner with the highest quality and integrity of products and services available in the USA
- **Very Competitive Pricing:** Woman owned small business that is free from the burdensome overhead and administrative costs that many of our competitors must include in their costs
- **Efficient:** Project management services with one-on-one communication to ensure our customers' desired outcomes are met within their timeline needs
- **Experience and Education:** In-house laser processing and manufacturing expert accompanied by key personnel with over 30 years of experience in industry to make sure the key aspects of any project can be met
- **Customer Oriented Focus:** Coupling a high ability to understand complex systems/problems with a focus on our customer's desired outcomes we will deliver in spaces that our competitors cannot.
- **Quality Mindset:** We focus on quality from the start knowing that quality can not be added once the job is done

## Past Performance and Relevant Experience

- **Prototype Generation**
  - Prototype creation from early concept, refining to a functional working model that can be scaled up
- **Manufacturing Scale Up**
  - Development of processes to take small and one-off manufacturing to larger scale reliable production
- **Design for Manufacturability**
  - Refining product and process designs to achieve more streamlined and profitable outcomes
- **Project Management**
  - Ability to understand all aspects of our customers' needs and create practical and reliable timelines that can easily be Integrated in to the "bigger picture"
  - Our members hold patents for designs and have spent years developing trade secrets for clients

## Company Data

- SBA Certified  
Women Owned  
Small Business  
(WOSB)
- Indiana Certified  
Small Business  
(SBE)
- NAICS: 332999,  
336413, 339999
- Registered in SAM
- CAGE: 979R6
- UEI:  
NLSRXMS57L5
